1 Tests

1.1 REST Server

1.1.1 Test 1 - Register User

Test	Result	Comment if failed
T1	passed	
T2	passed	
T3	passed	
T4	passed	
T5	passed	
T6	passed	
T7	passed	
T8	passed	
T9	passed	
T10	passed	
T11	failed	It is not working on every path. Sometimes it does not send an error on an invalid path.
T12	failed	The server is not yet able to handle invalid JSON objects.

1.2 CalendarGUI

Test	Result	Comment if failed
T1	passed	
T2	passed	
T3	failed	It does not work, because as soon as you press the button edit then the window is closed.
T4	passed	
T5	passed	
T6	passed
